

ADULAM MINISTRIES

JUNE 2016

WHAT'S NEW AT ADULAM

Much has happened here in Ciudad Juarez since our last newsletter. The most exciting event of the spring has been the opening of the Adulam Ministries Children's Home! This has been a process of patience and perseverance as we have made our way through all of the government's requirements to become certified to open the home, and we greatly appreciate all those who have continued to pray for this venture over the past year. We knew it was worth it the day that Jocelyn, Job, and Santiago walked through the front door. The children are siblings and have adjusted well to life in the home. We are also so blessed by the leadership of Jorge, a graduate of the Adulam rehab program, and his soon-to-be-wife Flory, as they provide the majority of care in the facility. You can pray for their family also, as they will be married at the end of July.

Church - Thank You!

EASTER MISSION TRIP

Over Holy Week, men from Adulam and members of Puerta de la Fe church took a mission trip into the town of La Norteña in the Sierra Madre mountains. The week was filled with Vacation Bible School, family outreach services, cooking meals for community children, and assisting the local church with electricity installation. It was a blessing to use this very special week for such a special purpose.

UPCOMING PROJECT

In the coming months we have plans to begin renovating the small house that is at the front of the Children's Home property (pictured below). The ground floor will house a tortilla shop run by men from the rehab program, while a second story will be added to host mission teams that come to visit. For years we have felt a need to assist the men exiting the program by providing a dependable employment outlet in this manner, and the time finally appears right to do so. This will be a multi-stage project, and we appreciate your continued support in this process.

HOW CAN I HELP?

There are several ways you can be involved in the great things that are happening here in Ciudad Juarez. First, and most importantly, you can pray for the work that goes on every day at Adulam Ministries. You may also prayerfully consider supporting Adulam financially. From utility bills to food to outreach costs, we appreciate your gifts more than you may imagine. Click on the button below to be directed to GHI, our supporting ministry that handles all monetary donations on our behalf. (On the GHI page, scroll down to "Church Partnerships" to find Adulam Ministries.) Finally, we have had friends asking what gifts they can send to the children at the home. At this time, we do not need used clothing, as it is difficult to bring across the border. A better list of options may be the following: personal hygiene products (soap, shampoo, toothpaste, etc.), school supplies later in the summer, toys that are in good condition, and children's books in Spanish.
