

Thank you for asking what God is doing here through Youngsters for Christ Team. I would wish to say much because it's amazing to see God at work here through the noble ministry we have.

Kibera is my home village where I grew up from and some of the few older persons known my past story... as a ministry we are simply doing what Christ would do if He would be in our community. Through the ministry we use our programs and activities (Ex.. Kids feeding program, Ladies sanitary towels, High Schools outreach in both private and government, Jesus films shows, youth camps, and sports among others, to reach out to all people in our community and at large for Christ, but especially the Kids and the youths.

We have some stories which we are encouraging and blessing to know about.

We have been collecting some information to update our website and here is one of the stories we would like to share, a testimony from Charlene Daphne and some pictures. She is one of the ministry members.

In HIS Service,
Samuel Njiru

Impacting a life today, positively for a better tomorrow!

Charlene Daphne's Testimony

I came to know Youngsters for Christ Team (Y.C.T) through my sisters in 2007. While I was still in primary school. I loved Y.C.T because I was always moved by the way youths there used to take Christianity seriously. With time I came to realize that those youths were not only zealous for God but also they had given their lives to Christ Jesus. With that in mind, I just couldn't stand to be exception. I had no other choice but to accept Christ Jesus as my Lord and personal savior like the rest, although I did not know how to.

I still didn't tell anyone that I wanted to get saved or even making a personal decision to accept Jesus in my heart. It was just a decision that I made personal and life continued. It is through the Youngsters for Christ Team meeting that I came to realize that a born again Christian should try to live a righteous life. I also came to know that a true Christian should embrace Christ and I could only live that way by knowing and understanding God's word in depth. This made me find interest in joining the (Y.C.T) especially Bible Study which is held every Saturday.

There I actually got to nourish my spirit strongly and I realized I was getting closer to God. After sometime I came to get familiar with Y.C.T weekly Programs. The programs made me found Christianity as a very interesting thing to be part of. Through the powerful pray meetings I got to know how to communicate with God and to make my requests be known to Him (God). Through the Kesha's (Overnight prayer meetings) and the Worship service I got to learn to pour my heart at the feet of Jesus and I never left the Overnight meetings the same I came there.

I am one person who has witnessed God moving me from one point of glory to another, through the relationship that I got to have with Him (God). Putting my trust in the Lord has made me see God's mighty hand in my family.

When I remember how my mum gave birth to my lastborn sister, through caesarean section, successfully and without paying a cent, I just have all the reason to thank my God. I also thank God that through my salvation my family has known how to depend on God and am certain that with time they will all get to accept Jesus Christ as their personal savior. Finally I would like to thank God for making me to get to know Y.C.T and being part of the ministry course. It has made me to be not only rich spiritually, but also to be a lady of Good morals and Integrity. Today I'm one among the leaders in the ladies ministry in Y.C.T

Praise the Lord. God bless Y.C.T each day
