

April 2018 - Current Ministry Needs

Benedict and Benedicta Story

The Mission is feeding and clothing 9 months old twins, Benedict and Benedicta, who lost their mother after a week of delivery.

The children's mother was won to Christ by Pastor Augusta (a graduate of PTI) and she became her church member. Since the death of their mother no one has come forward to take care of the babies. Pastor Augusta has become their mother.

Pastor Augusta serves at Wipe Away Tears, a small church, comprised of members experiencing personal suffering or hardship. Her average income is \$5.00/month.

They are living in the church building, now chapel and home.

[\\$50/month](#) would allow Augusta to continue her ministry work at Wipe Away Tears.

[\\$25/month](#) would provide food, clothing and basic necessities for one of the children.

Titi – The Peace Within, the Pain Without: An Irony of Inner Peace and Bodily Pain

Titi is a 30-year-old single mother with an 11-year-old boy, Emmanuel. He is a class five pupil of the Most High Mission School.

Titi has been a church-goer since her teens but had never been born again. She worked as a food vendor, but also resorted to supporting her living expenses with the help of many lovers. 9 months ago an ulcer on her arm became infected. She began to visit herbalists and witch doctors and prayer camps for treatment but to no avail. The condition forced her to quit her job.

The excruciating pain was becoming unbearable and Titi began to be concerned with where she would spend eternity should she die. “Deep down in my heart I was convicted for not being in Christ but churching,” she confessed. She ran quickly to God. She began to confess her sins in tears profusely. Lo! and behold, God heard and flooded her with joy and peace unspeakable.

Titi prayed fervently to Christ for the healing of her arm while she dressed the sore at home. As a single mother, MHM enrolled her onto its Single Mothers Assisted Programs (SMAP). Her siblings are not able to support her. Former lovers offered help, whose support she refused because such came with condition of offering the use of her body attached. Her surviving mother is bedridden with stroke.

“Pastor, if you don’t help in treating my sore I’ll soon die,” she lamented. “Pastor,” with tears, “some have come with the money I needed to go to hospital but would not give it to me because I refused to give in to sin.”

MHM compassionately responded to her plight and began to support her treatment. The fruit of repentance was evident in her response during her counseling sessions. She would pour out her evil deeds with tears streaming down her cheeks when a Bible passage touched her past deeds. MHM continues to pay her hospital bills and also prays fervently for her recovery but her condition was rather deteriorating day by day.

A lab test revealed that the sore is cancerous. According to her Doctor, to relieve her of the excruciating pain, loss of blood and to save her life the arm needed to be amputated immediately. “Pastor, with the peace in my heart now, I’m ready for that. “And you say, Jesus says “And if your right hand causes you to stumble, cut it off and throw it away. It is better for you to lose one part of your body than for your whole body to go into hell.”

Titi’s arm was amputated successfully on April 4. She was discharged two days later. Titi is still in hospital because MHM doesn’t have the funds to pay for the bills. In Ghana, if you don’t have a National Health Insurance Card, one remains at the hospital until the bill is paid in full. Titi does not have insurance.

Upon discharge Titi is considering completing her Basic education and a six months computer training to become a stenographer to the school.

MHM is looking to raise \$3,360 to pay Titi’s bill and release her from the hospital.
