### Cornerstone Academy of Manipur

After studying on a University of Minnesota-US Department of State fellowship in 2009, Thangboi Haokip and his wife, Kimsi, founded a K-10 school in the desperately poor city of Sugnu in south-east Manipur state. In this poverty-stricken Asian tribal environment, thousands of children are never educated. The transforming message of Jesus and a life lived under His authority are too rarely heard and practiced.

Since its inception, Cornerstone Academy has grown from 30 to 100 students, with potential for up to 500. When you sponsor a class, more poverty-stricken children will be able to receive the opportunity for an excellent Christ-centered education.

*"Join us in sponsoring 'the least of these.'  
It brings us such joy knowing we are  
making a significant difference  
in their lives and future."*
