

Update from the Botchway's

January 2019

Dear friends and family,

We hope you had a blessed Christmas and excited about the beginning of a new year. This Christmas was special because it was our last Christmas with our family in Minnesota after fourteen years. We had our Christmas lunch in our daughter's Kylie and her husband's Bryan's apartment. We had all our children and grandchildren there, so that was special to us.

With all the packing and cleaning that went on, we were able to finish and leave our apartment finally on December 28th as planned. We arrived in Ghana the following day in the evening about 7:30 pm. Just upon our arrival we had to do some renovation in our house to make it a little bit more like home again after so many years of not leaving there.

It's been exhausting getting workmen and making sure the work is done properly. Thank you for being a part of making our transition easier with your prayers and financial support. We shall be getting back to work as soon as we have a place to lay our heads and a kitchen to cook.

It's been a joy and a pleasure being back and getting into the system here. We covet your prayers as we make new contacts and connects with more leaders here. We appreciate both your prayers and financial support as the renovation has exhausted a lot of our finances. To support us visit www.globalhz.org/enrich-leadership-network/

Prayer Needs:

1. Pray for strength as we begin our networking. It's been exhausting with all the work done in the house.
2. Pray for wisdom as we connect with leaders and people God brings our way
3. Pray for our financial strength

With hearts full of thanksgiving.

Albert and Sandra Botchway
