

Gloryshine India – June Prayer Letter

Dear Friend,

These past months our teams in India have concluded several Vacation Bible Schools in the summer there.

I am so thrilled to celebrate with you in sharing the powerful impact of the gospel on these children. There were over 100 children in all three VBS programs and 60% of the kids that attended our VBS, you can see below, are from non-Christian families (E.g Hindus and Muslim backgrounds).

The message we shared with the children was about the grace of God, love, and forgiveness. These children were singing the songs on the streets that they learned in VBS while playing with other kids. The parents were pleased to see their children demonstrate the new things they had learned like being good with other siblings in the family. They knew that they were learning these songs and new things from the VBS they attended.

That's why parents love to send their kids to our VBS programs, although it may be true that they want a break from the kids, they also know that their children are being taught good things.

There are more stories to follow but here some pictures. (Please pray as you view each picture)

We are committed to our call

We are committed to sharing the gospel to the one who still needs to hear it. Would you join us in carrying it forward? Will you join us as prayer and financial partners? Would you lend your shoulder to take up the gospel? We together can carry it forward.

As you look forward to enjoying the summer, take a family vacation, God bless you and your family.

Joseph and Krista Janga
