

July 9th, 2020

Dear Friends,

Warm greetings to you all in the Name of our Lord Jesus Christ.

We trust you are all safe and well as we are here by God' s help. Praise be to God for His mercy and care for us during this period of the virus lockdown. God is Almighty, and is in control of everything.

Today is Independence Day here, but there are no celebrations because of the virus. Last night we slept well, no gun shots in the air. These days there is a lot of insecurity because the civilians are carrying guns and there is lawlessness. Cattle rustling has become deadly through the use of military type guns. Civilians die every day in tribal fights and revenge attacks. Pray that when the virus is over, the churches here should rise up for country wide evangelism and church planting. Most of these evils in society happen because don't know God or fear Him.

I and the small team I lead have continued to do translation work. We are translating the New Testament into our Ma'di 'Burulo dialect. We have done most of the translating, remaining typing, correction and proof reading before it can be printed. Pray for the success of this work.

I and Tabita remember you all and pray for you all. The blessing of God Almighty be with us all.

Nikolao & Tabita Vuni.
