

Gloryshine – 6/1/20

Dear friend,

Thank you for standing with us during this difficult time, although Covid-19 has put our world at a halt, God provides new ways to reach out to the needy world, with His message of gospel and love,

I have begun Bible teaching/training for our medical students on zoom at the end of April and Thank God for the technology. I was so encouraged by the dedication of the students who are willing to learn God's word and equip themselves in His word, we have classes every Monday and Thursday, I was able to teach 6 classes altogether thus far. Below are our teaching sessions that are already finished and I will be starting a new series next Monday on the doctrine of God. I am planning on taking in four sessions, beginning next Monday, (Let me know if any of you would like to join) on zoom morning 7:30 am to 9 am 1-hour class and 30 minutes for Q&A session.

We have an average of 18 students attending, out of 25. Please pray for medical students that they will be able to use these tools for evangelism.

A student said that she is thankful for the teaching of how to share our story/testimony in a simple yet effective way, and she said "I was able to use the storytelling ideas, and it made me comfortable what and how to share my faith journey to Christ, it was so easy to share what God has done in my life to my Hindu friend. I praise God for the feedback.

One of the exciting things about this teaching is, I invited one of my childhood friends who is a Hindu to zoom class, he's been attending for the last couple of sessions and he told me that he is inviting his parents to listen to the classes and he is explaining to them while he listening. His parents met with my dad in the village and told him how they are able to understand about God. Please pray for them.

COVID 19 Relief work in India

We were able to send \$650 which converted 48000 rupees to provide 60 packets of groceries to our churches believers in India, 60 families have been helped who are in dire need of food, especially those who lost the jobs or daily labors these groceries can feed them for 2 to 3 weeks.

Thanks to GHI for their generous offer relief funds in partnership with Gloryshine.

One of the believers had tears in his eyes for your generosity, He said no US donor has ever seen us yet the love of God that goes beyond borders, and He has taken it with a grateful heart. And thanked Gloryshine for standing with them in this difficult time. Thank you we could do it without your help.

Possibility of Church planting expansion in India.

A lot of requests have been submitted during past several months, there are many who worked with me on my team in Operation Mobilization are now planting churches and are willing to go into places and plant a new church, after I consulted with our board here in the US we are carefully considering to take a few of them. Please pray.

We are grateful to God for this faith journey with you, your partnership means a lot to us, we could never do with you. God bless you and keep you safe. Thank you.
