

3/10/2020

Dear friends,

We praise God for a wonderful week of ministry! We began our pastors' training on March 2 as planned and there are 20 students attending the classes.

Thanking God for providing teachers this time at the last minute. The courses we are teaching are Christian ethics, Life and the teachings of Jesus Christ, and Homiletics.

Christian ethics and the life and teachings of Jesus Christ went hand in hand, as we have discussed some of the hard-core issues of the society that is here including "Dowry, Bribes, Caste system and abortion especially the girls or female infanticide". Students actively participated in learning from the Bible's perspective on how to tackle these social problems.

Meeting with Medical Students

I have had a great time not only teaching Christian ethics but also meeting with a few medical students for the purpose of starting ministry among medical students in the future. I will be meeting the rest of the students this month and will make a team.

One of our students, Timothy said with a grateful heart to God that it could not have been possible for him to get this kind of teaching/ Diploma Course in a formal Bible school as he would have had to pay huge amounts of money but he was getting this training for no cost. Thank you for your generous giving for the work of the Lord.

I had the privilege of sharing the Word in one of our village church last Sunday (picture is below) and met a brand new believer, there are 10 students who are ready to come to know Christ at Easter, Pray and Praise God with me for them.

Here are some pictures of last week's ministry; Enjoy!

Thank you,

Joseph Janga
