We appreciate you very much for your support to this ministry. We are amazed at the things The Lord does out there in the mission field. We are eyewitnesses of God's love, saving grace and power to rescue man, whenever we share the gospel in villages, islands of Lake Victoria and South Sudan. We are equally amazed at how The Lord has kept this ministry going. We thank you, invaluable partners for supporting this ministry. We can never appreciate you enough.

One of our main areas of ministry, the Islands of Lake Victoria receives essential supplies from the Ugandan mainland. This is currently severely limited due to COVID 19 lockdown. It has been and is quite tough for some people. Secondly a season of heavy rainfall has brought a rise in the water level of the lake to the highest in fifty years. Buildings are submerged, some people displaced and property damaged. We have kept in contact with leaders of teams of pastors for prayer and to help whenever we can. There is need for a quick intervention (**an outboard engine, wooden boat, food and other essential supplies, and if we hope to build a temporary shelter on our ministry land for a rapid response to the problem**) to help the churches and people on the islands. We request for prayer for these precious people.

From the last quarter of last year until March this year we made we made a number of outreach trips to villages in northern Uganda for evangelistic outreach and church conferences. The insurgency in the region came to an end but according to Pastor Jimmy Okel, the district leader of Agago interdenominational Pastors' team, the spiritual war is on. The communities still bear deep spiritual, emotional, psychological wounds from thirty years of civil war. We are doing ministry mainly to Agago district and plan to go to Kitgum, Pader and Amuru districts. We plan to go back after the lockdown to continue with outreach, set up medical and dental clinics and help youth, women and strengthen the church in these communities.

During the lockdown our partners, leaders of rural Pastoral teams are hiring Public Address Systems from bar owners for sharing the gospel. Communities, thirsty for the message of hope are very glad that the church is giving them a message of hope while everyone everywhere is spreading words of fear. Some of the pastors in close proximity to the radio stations are using them while others are using loud speakers and phone calls to talk about Jesus, The One who conquered death. We wish to support the rural church with simple public address systems for the broadcasting of the gospel in ten communities around the country.

**GOAL:     \$13,000**
