COVID-19 & Earthquakes

On March 22, we felt two 5.4 earthquakes, centered near Zagreb. Our family and local community are safe, but there are many needs around us, including several church building repairs and service to the elderly. We remain in strict quarantine for COVID-19 which further complicates response efforts. Pray with us for safety, shelter and recovery for those in need.

Pastoral Care & The Gospel

Difficult situations in our western Zagreb neighborhoods have created windows of opportunity to care for those in need both physically and spiritually. Many around us are now asking spiritual questions and seeking truth in these difficult times. Please pray for boldness as we share the gospel with all who seek answers to life's big questions around us.
House of Hope: Nearly there!

Exciting Times of Progress
"It has been a four year journey to transform this former communist police station into the "house of hope" a center for gospel care to refugees and at-risk members of our community. We have seen many trials with construction, community response, financial burden and even global pandemic, but friends I'm excited to tell you the Lord has blessed our efforts and we are very, very close now." - Pastor Mihal

House of Hope: Before & After
On the left is how the house was found after years of neglect. On the right is how it looks today, after transformation. See what the Lord has done!
Call to Completion

We are so very close to completion of the House of Hope, but we need your help. Many of the delays associated with the project caused unforeseen expenses and we are in need of an additional $40,000 to complete the project from the current state to grand opening.

We ask you to consider a donation to assist us with final materials for landscaping, painting, flooring, bathrooms and decor. We have been blessed with many who have donated their time and labor, but your financial commitment will help supply critical materials needed to finish strong. We hope, pray and move forward with our plan to open the house this spring and begin to serve our community well!

Join us as we finish strong! Note: We are continuing with construction in compliance with Croatian COVID-19 protocols, which allow a crew of up to 5 to work in the facility.

Thank you!

Mihal Kreko
