April 14th, 2021

Dear Friends,

Greetings to you all in the Name of Jesus, trusting that you are all well as we are here.

On Easter Monday I and Tabita travelled to our village in the countryside about 100 miles south of the city of Juba. Our main idea for going was to begin doing something on our farmland. We found the land overgrown with trees and grass. We could not do much as the local people were not willing to work on the land. Only 1/4 of a feddan was cultivated and we planted 6 banana succors. The rest of the cultivated land will be planted with beans.

As for accommodation we stayed in our son's two roomed house since the roof of our two roomed house was blown off last year by a strong wind.

Last Sunday we worshipped under a tree together with a small group of believers. We returned to Juba this afternoon. Thanks to God for protection and travelling mercies because from time to time there are ambushes and people are killed on the roads.

Attached are some pictures:-

Tabita standing in front of our son's house
on our arrival, I am using a hoe to clean the grass around the house.
Worshipping under a tree

Tabita with a white head scarf holding a shaker in her hand.

Thanks so much for your prayers.
Nikolao & Tabita.
