

As the leader of the Youth programme at M: MM working in three projects of Yembe, Busiu and Nabweye, in Uganda, take this opportunity to thank you so much for the love you showed us by bringing us the Knowledge Boxes and the kindles. These have seriously helped the youth gain something new in their lives. The much felt impact has been in the south and that is Nabweye and Busiu- Namunyu. This is where we went with the trainers that came along with Nan (and the team of students from North Central University).

I pick up these kindles on a Fridays from the communities, charge them and deliver them back on Saturday for the project. This has been done on weekly basis. They divide themselves in groups of two or three and use them by putting the COVID 19 SOPs in place. I thank you once again and would kindly request if possible for more power banks such that we reduce on the numbers on the of being in big groups. This can now be at individual homes with each youth having their own knowledge box and kindle every week.

Thank you for loving us (below) are some few testimonies from the Youth of Nabweye and Busiu in Mbale.

Blessings!

SOITA SETH BRUCE

SYS ADMIN/ YOUTH LEADER

YOUTH TESTIMONIES

“My name is Moses Wangota from Nabweye youth group. I take this opportunity to thank Mission: Moving Mountains for the knowledge you have given us. Am so grateful for the love the organization has shown us through the provision of the knowledge boxes and the kindles. I personally have been able to watch the cartoons made from West Africa with the names of the little kids as FINO and BINO! These have taught me how to relate

in a family with a brother and a sister. Am now a changed young man. Initially, I was not in good relationship with my little sister but when I watched this great inspirational video, with good and encouraging words from the parents on how to live in harmony with each other. I now honor and listen to what my parents tell me and this has earned me respect in family and the community at large.”

”My name is Derrick Wepondi, a youth chairperson of Namunyu Youth group. This knowledge box and the kindles have been a great additional tool in my life. Am a keyboard player in my church known as True Vine located here in Busiu project Mbale District and I have been added on more skills on how to play a keyboard. The lessons conducted on these kindles are just super great and have seriously perfected me in playing the church keyboard.”

“My name is Timothy Bulitya, a son to Robert Kawoyani, a key Actor of Nabweye project in Mbale District. The combination of the knowledge boxes and the kindles has added much on my reading culture. I can now read both biology and Chemistry notes at home without any doubts on spelling issue.”

“My name is Esther Khaita, Nabweye Youth group chairperson. Am grateful for the continued love M: MM Uganda has been showing us day by day. In the first place encouraging me to be a youth leader for this group and also the skills imparted in me has seriously changed my life.

Concerning the knowledge boxes and kindles, these have been a great transformation to me. I didn't know that such gadgets have such wonderful resources in them, but as we received them, they have changed my life style. On the resource called Career Girls, I have

been inspired by those wonderful women like Dr. Doriane Miller who shared her love for love for science and the desire to become a physician. This has challenged me to study hard and be a doctor.”

“My name is Mukoya Joan, a youth member of Namunyu youth group. Am so happy for this great chance of having the knowledge boxes and the kindles. The bible project with fully animated videos makes my day and I request that this continues because I am getting rooted more in the word of God.”
