

March 2022

Greetings to you, we pray and hope this email finds you well and firm in your walk with Jesus Christ.

We are so proud to share our update report with you about our Invested Faith in God through the great commission "Go ye into the world" that has continued to Impact Lives for Christ Jesus.

Report. It's hard to believe we from the beginning of this year 2022, we have more than 38 souls that have given their lives to Jesus during our outreach programs and missions. Even as we continue to do follow-ups and discipleship. Doing the hard work of healing the world.

Youngsters for Christ team mission Update Report offers a glimpse into the progress, through Faith, and with your prayers, it has made the past months fruitful and offers a generous help of hope. Not only for the program leaders also for the positive impact they are making on the world but for the future and missions of village churches and school ministries - who can now say boldly to the world "May our witness be a blessing."

Few program updates:

- The effectiveness of our children's ministry in the slum of Kibera is so much immensity that has brought positive influence to so many children that have found a place to find teaching and exposure to the things of God. Our children's program weekly brings together more than 180 children.

The children's lives are impacted and lives changed to influence their fellow children in the community about knowing and loving God and sometimes as program leaders we find time to visit where they stay to find out from their guardians or parents about their behaviors also. Though the majority of these children are living with their grandparents because most of their parents passed on.

- With many young people being found in wrong groups both at home and in schools as a mission we have been able to find favor and grace and have introduced Bible clubs in schools and in the villages we have been able to have home cell groups/home churches. That meet on either Wednesday or Friday.

- It sounds heartbreaking to hear a teenage girl struggling to protect herself or to keep herself clean in Kibera when her menstrual cycle starts. Due to the challenge, many find themselves trying to use dirty ragged clothes to a point of sharing the same with their siblings or friends. With this challenge and need Youngsters for Christ's mission is trying so much to reach out to these girls twice every month through God's Word and help by supporting each of these girls with a monthly pack to keep them hygienically clean.
- With many opportunities to grow to expand God's mission, God has been faithful in helping our mission in finding opportunities to connect with local pastors especially those in the far villages that have continued asking me if I could be of much encouragement to them and even supporting them in planting churches in the villages for their community. We praise the Lord for His goodness.

We thank God for you and for allowing him to work through you in making it possible for others to be reached by God's word, we are grateful for the love and prayers **Attached are a few pictures.**

How can we continue praying for you?

Regards,

Samuel Njiru
