

March 2022

House of hope for Ukraine!

The House of Hope will continue to help the Ukrainians:

1. Sending food, hygiene and medicine to Ukraine.
2. Transport refugees from the borders with Ukraine to Croatia and within Croatia.
3. Housing in House of Hope for those in urgent need for accommodation, before more permanent accommodation is found for them.
4. Assisting in finding and moving to more permanent accommodation.
5. We are launching a quick course in Croatian language and culture for those who have decided to stay and work in HR.
6. Financial assistance to families who have received Ukrainian refugees (to assist in solidarity rent and utilities) and assistance to Ukrainian refugees in Croatia in food and supplies until they are consolidated or return to Ukraine.

We assume that these circumstances can / may last from 6 months to 3 years.
