

Beloved of God, it is with joy we are writing this email to you recognizing the superiority of God and the Power that is in His mighty name. The name of Jesus Christ. How we hope this email finds you well together with your dear ones. Would love to bring to your attention what God is doing here in Kenya in summary.

My family and I have continued to find God in small deeds that God has continued to bring our way in the midst of so many difficulties and challenges. If I would mention one is to find ourselves in a state of lack, but miraculously HE turns out to be our refugee. We are in good health and in all things we learn to trust him. As a mission, God has continued to teach us to build our capacity in faith even as we launch to the deep. e.g. in schools, home cells Bible studies, girls' outreach, a feeding program for the children, and supporting local community churches through evangelism and discipleship. So that we may raise a people and a generation that will arise to praise God even in the midst of hardship and challenges.

HOME CELLS BIBLE GROUPS: With different villages and communities here in Kibera God has helped us to establish a good number of home cell groups in different villages even though there is a difference in tribes our cell groups have been encouraging the people around to come and learn about God. We thank God for such an opportunity that helps us to win souls and build the body of Christ. By emptying Hell every day and filling Heaven.

CHILDREN MINISTRY: Our children's ministry has been one of our amazing ministries because we encounter these beautiful young souls each day though with big smiles, but a majority of them come from hurting homes, and many go without eating. Though through it all God has been helping us to be a source of encouragement through our feeding program and art classes when funds are available. That gives us an opportunity to minister to these beautiful souls of the love of Jesus. It is something we would love to do more. To help them have hope for tomorrow and the days to come.

GIRLS OUTREACH: Would wish you to imagine how challenging it is for a girl child each and every month in their calendar. Their menstrual cycle will come, but the hardest part is that this girl child is coming from one of the largest slums in Africa, Kibera. Finding a meal is a challenge for families. When it reaches that time of the month they cannot do much because of the shame. As a mission, God has given us a call to reach out to these girls in the community. By sharing with them the purity of the heart that happens through accepting Jesus and sharing with them a pad for their hygiene upkeep. We do this when God provides funds to bring these wonderful young girls in that place of identity.

It's alarming to the world and mostly to those who are to the house of Jacob that we need to arise to the call and to respond as the Lord leads, for the last few months it has not been easy for Kenya mission Youngsters for Christ Team especially some of our programs due to the needs we are even currently facing and we believe that the God of Harvest will come through.

Shalom.
