C4DMU is a Christian centered non profitable organization which exit reaching out to the deprived communities of Uganda with a message of hope.

Our mission

Growing together in the communion of God

Vision

Building hope and transforming communities

Currently we are working in two communities of Uganda that is Kamuli Balawoli eastern Uganda and Mukono Kabembe central Uganda

C4DMU supports and partnered with **MT. OLIVET CARE VIEW SCHOOL KAMULI BALAWOLI** and **ZION LUTHERAN SCHOOL MUKONO.**

Clean water is a major challenge in our country Uganda and 38million population of people go without clean water which has put our people in dangerous situation. Every day 33 children dies because of taking dirty water.

The two communities where C4DMU is working, they have a high risk and challenge of clean water therefore, as the GHI organizes the fundraising run this year 2023 C4DMU is humbled and blessed to be among the four selected partner projects.

As C4DMU seeks to provide basic education for children as well as skills and job training for older youth and adults. We do this through our schools and churches in two impoverished communities in eastern Uganda (Kamuli Balawoli) and central Uganda (Mukono Kabembe). However, at this time, the communities where our schools reside are lacking even in access to clean water. Your support will go immediately to our well project in order that we can meet basic needs and be enabled to continue our support of the schools and families in these two communities. Goal: \$20,000 for two wells of clean water project
