

# The God Who Causes...

*Great is the Lord and most worthy of praise!*

*Please pray for us & with us...*

- ★ **Bopha, Rosza & Sokhai will continue to grow in their love & service in the Lord by the leading of the Holy Spirit.**
- ★ **Voleak has the courage to share her faith in Jesus to her parents & two brothers.**
- ★ **Good health, stamina & complete healing of my wrist. Praise the Lord for providing me a good doctor.**
- ★ **Wisdom & guidance as we reschedule and assign our bible classes with 3 different youth groups**

Bopha, Sokhai and Rosza are assisting in the after school program ministry; teaching Khmer, Math and Portrait Drawing to those who are willing to come at the center for Grades 5, 6 and 7. This program reinforces students' reading comprehension and to assist their unique learning skills. Most importantly, this is to encourage, to equip and to train Bopha, Rosza and Sokhai as they establish and strengthen their own small groups.

*God causes the growth.* Voleak is faithfully serving as one of the Sunday school teachers. She is one of the students in our Word & Life small group studying Abundant Life In Christ every Sunday.

*God causes the healing.* March 28, I had a doctor appointment with Mary Jane, BSOP team in Battambang concerning my wrist which has been painful to move and to carry stuff since middle of January 2024. If possible, I was requested by the doctor to wear my wrist brace all the time. It needs time to heal. My right wrist needs rest from frequent use and movement.

March 6 to 8, we had a refreshing *Anlong Veng Team retreat* in Siem Reap. We were able to spend quality time together, encouraged one another and discussed plans together for this year 2024.

### Community Library Center

★ **Protection and courage to resist temptations. For the church to stand firm in their faith in Jesus - adults and young people alike. Khmer New Year is coming; it is a huge event both the country's culture & religion.**

God causes growth in building a community of youth and children to come together to the center. It has been a delight to see them interacting while learning and reading with their schoolmates and friends. The process of putting everything together is far from over, however everyone is excited; they keep coming everyday.

The team planned to have a day to open the finished library to both primary and secondary schools. We will convey this to the school principals so we can arrange and plan the necessary things to introduce the library to schools and materials needed to assist their studies. Let us continue to pray that this will be a great avenue for evangelism and discipleship. *Praise the Lord for He causes the Gospel to spread!*
