

April 30, 2025  
Calvary greetings,

Being grateful for life is one thing we should always be doing, understanding that it cost Christ's love to be where we are today. Kenya mission Youngsters for Christ continues to find reasons and importance by continuing to share Christ's love and making an impact through the transformation that happens to the people that we minister to.

Through our mission, God's grace has continued to abide even through challenges. With faith, we have continued navigating the calling through different activities and programs in different communities and villages with the help of village churches and community leaders.

Our children's ministry, which has continued to impact the community by stepping in to reach out to these children who come from broken homes where many go without a meal, God has tremendously positioned Youngsters for Christ to minister to these children with God's Word through different methods. Like Bible stories, coloring books, learning charts, songs, poems, and plays. Each time we share with them a meal which encourages them and which helps hold their body for a few days, where to many this would be their only meal. With this program, we reach up to 230 children, and we have continued getting positive reports and encouragement when we get to hear their stories. Kindly, join us in this journey and together let's help to bring a generation that will honor God.

With a community that is filled with a lot of unthinkable or unimaginable hardship, God has blessed the Youngsters for Christ mission to be a voice of reason amidst so much confusion in the lives of young girls who go through a lot of shame, embarrassment, and even stigma due to their monthly cycle. Our “dignify a girl” outreach program has been going its way to even rescue the girl child who has been going through molestation, as it is due to a lack of sanitary towels. Keeping them in homes in the villages to stay with different families to keep them safe. Many go through such due to a lack of sanitary towels because of this challenge, many have become prey, to the point where some have been found with STIs. With this challenge, we have been able to help a few of these girls monthly.

Kibera is a place that is overcrowded by the population and families living below the poverty line. With the hardship that people go through, it's heartbreaking when you end up losing everything you have owned in such an environment. It is hard to imagine that some families, especially widows and children, lose all that they knew, their beddings, clothing, shelter, because of a fire that engulfed all that they had, with few escaping with injuries. As a mission, we are trying to help for the time being, as some of them are camping in our mission building, and we are trusting God to come through for them.

Prayer points:

- Please pray for our hearts to remain steadfast as we continue facing the mission field through the unity of purpose as a mission here in Kenya.
- Please pray for Kenya as a country that God may protect us from the divisions that are being planted by politicians in the villages and communities
- Please pray for Sammy's family

Also, you can make donations through US nonprofit partner Global Horizons Inc.:
