

Full Life Training Center, Nepal
July 2025 Travel to Gorkha

Dear friends,

I hope you are well.

I am blessed to have your support of our ministry in Nepal and excited to share all God has been doing.

My heart is full. So much has happened since my last letter to you in June. I am planning a few updates over the next few weeks to get you caught up.

July Ministry Updates:

We had a five-day community outreach ministry in Gorkha for the Full Life Training Center. First, I visited Binita's house to see her microbusiness (pig farming) with three piglets. I was amazed that she is taking so much care with hope and joy. I prayed for piglets and for her family members: Sunil, Binita, Immanuel, and Evana.

Also, we started a deacon's training with our Full Life Training Center (FLTC) team: Keshar, Pradip, Ravin and Binita. We want to provide more theological and ministerial context for the works that have been done through FLTC's income-generating programs. We will teach 6 courses, two hours each. The first class was about why it's important to incorporate biblical values. We ate noodles together and prayed at the end.

Also, I was impressed with Keshar. He is creative and takes initiative in church ministry so well. He started a chili plant farm, brought 150 sprouts, and has started planting them. He is doing creation care and creating jobs. The farm has provided employment for two brothers.

Keshar also started an after-school tutoring program for 20 students in Yankot. In coordination with Grace Church, he has rented two rooms. We are praying that we can finish construction of the FLTC center and transfer the after-school program there. The center needs walls, electricity, a kitchen, and restrooms.

God is working.
The church is thriving.

Thank you for your prayers and support that make all of this possible.

In Christ,
Pastor Santosh Khatiwada
