

Empowering Women through liquid soap training
Full Life Training Center – Gorkha Nepal
Testimony – 4/8/2026

Mrs. Mina Bagale recently sent her 21-year-old daughter to Dubai for work. Unfortunately, she had to return due to the war between US and Iran. She took the training and the day after the training. She started making liquid soap and began selling it. She sold 16 liters, earned 1,280, and she invested 700 Nepali rupees, and she got the profit amount 580. This is a

good beginning. She is quite close to making it a profit-making micro business. Jesus Christ is the LORD of heaven and earth. He is not just the one who rescues our souls but the one who claims our physicality – totality of our life. Praise be to God and thank you so much for your generous support to make this training happened. God Bless
