Sharing the Gospel with a local magician (dear friend and elderly man)

Jesus speaking to the group of Pharisees summarized the core of Christian Gospel that is: a) loving God, and b) loving neighbors (Mt.22.34ff). the church desires to love its neighbors by listening their cultural/religious stories well. In view of this sermon from Jesus, we were able to come together as an evangelist to learn about 'What is Hinduism?' and how to share the Gospel to its adherents on 26th of September.

Presentation on Hinduism at Grace Church KTM

It was such a joy to know our neighbors' stories and learn some spiritual habits and motivation in evangelism. The aim of this fellowship was to learn about 'worldview evangelism'. This phrase I learned from Timothy Chung at ACTS and it was fully developed and explained by Dr. Bob Osburn in the comparative worldviews class. Now, FLTC desires to develop a school of worldview evangelism ministry to equip churches, pastors, and church members in loving neighbors by knowing well our cultural/religious stories.
