October Newsletter

Here's what we built together !

Thanks to your support, this quarter was full of progress. Here's a look at everything we accomplished — and where we're headed next.

As the leaves begin to change, and the energy of summer begins to fade, I find myself thinking about what we have accomplished and what's next.

Over the past few months we have been working at building the structure that will support our ministry for the years to come.

We have partnered with Global Horizons Inc. as our US fiscal sponsor. For those who don't know what a fiscal sponsor is, let me explain: they provide accountability and financial oversight as well as providing us the ability to access US based grants through their 501c3 (charity) designation and issue tax receipts to our US based supporters.

Our desire is to become a registered charity here in Canada. In order to do so we are looking for the right board members who love the Lord, love missions and have the right skill set to help us run this ministry for the years to come. We are also investigating an intermediary partnership, which will allow us to function as a registered charity while we pursue the designation ourselves.

What's going on in Fiji?

Since our organization is focused on supporting locals who are doing the work, we don't need to be present in order for the ministry to continue in Fiji. We have decided to run quarterly fundraising campaigns where all the money raised goes directly to the current needs of our ministry partners. In the month of July the funds we raised allowed us to access an international database of grants. Sharalee was able to assess and select the most viable grants for building a women's and children's center on the Adult and Teen Challenge Fiji property. She created a funding strategy that was then presented to the ATC Fiji board. In that search she also identified several grants that would allow Intune Ministries to expand the Bible School program in the prisons of Fiji. On our next visit we will be connecting with the upper management of Fiji Corrections to present the bible school as a program that they can use island wide. We are asking for prayer as we plan the next trip so that we will connect with the right people at the right time and that the doors will be open.

We continue to support George and Kalisi as they reach out to the street people in their corner of Fiji. We continue to send funds that allow them to purchase blankets, toiletries and other basic necessities. Our long term goal is to establish a central hub that will become a safe haven for the street people offering them everything from meals and showers to support services and training to help re entry into the work force.

If you would like to know more about any of these initiatives or you might know a business or individual who would be passionate about what we are doing and might want to be involved please reach out. We know we can not do this alone so we are asking again for your support. We appreciate you joining us in prayer as we seek the Lord for his direction on the order and method by which to move forward with each of these mission goals.

If you are not a part of our Facebook group please join now to see our current fundraising campaign as we help to transform lives through The Power of Music! And we invite you to Share what the Lord is doing in Fiji through Intune Ministries!
